

SUPPORT AND ACKNOWLEDGEMENT

We urge all to support the farmers market during this temporary relocation, even though it might not be totally convenient to do so.

It is very important to keep the current market composition intact and sustainably alive until we can return it to its most natural and purposeful habitat where it was created in 1980.

We wish to acknowledge with thanks to the many patrons who have assisted us in our search to resolve our dilemma.

Much appreciation for the consideration and cooperative sessions with personnel from Caltrans and Flatiron Construction.

Special appreciation to the City of Sacramento and California Departments of Food and Agriculture, General Services and Motor Vehicles for their support in our search.

Great gratitude to Mark Friedman, his family and the Macerich management of Arden Fair for allowing us to temporarily operate our service on their property during our displacement period.
