

Certified Farmers' Markets are essential to providing a fresh food supply directly to local communities.

All of our current markets will continue to be open and following CDPH guidelines.

We all have a role to play when it comes to preventing the spread of COVID-19.

- Please **practice frequent hand-washing**. We will provide a hand-washing station, but we encourage customers to continue to thoroughly wash both hands and produce **at home**.
- **Please try** to attend the market **solitarily** if possible, and please leave **six feet of room** for other shoppers. Many farmers will be expanding their booths to accommodate social-distancing.
- **Please stay home** if you are at high risk or have any cold or flu symptoms. Please stay home if your trip is unnecessary.
- Please keep your visit as **brief as possible**. Many farmers will have pre-portioned amounts to expedite shopping.
- There is currently **no sampling** allowed.

Thank you!
